

please note that ". rasa" file is not here, I'm not quite sure it would work.

its size is almost 900MB. 😊

وشكرا لكم

ودا دوكيو منتشين للأركتكتشر غالبة يعني :

- **Actions:** contain special responses for users input and some Developer's functions (like retrieve data...etc.)
- **Data:**
 - Nlu: the training examples for each Intent and Entity
 - Rules: defined rules for users input and how to response for
 - Stories: scenario for conversations
- **Models:** trained models
- **Test:** some test stories and scenarios
- **Results:** the confusion matrix for:
 - DIET classifier both Intent and Entity
 - TED policies which is responsible for picking the right next action
